

CASE STUDY

Fostering Team Collaboration

through Experiential Learning for a Health & Safety Organisation in Mauritius

Background:

The company is dedicated to maintaining high standards of health and safety across multiple companies. This specific team of 9 Health & Safety officers had never participated in a team-building activity together. The new head of Health & Safety, familiar with FocusU's work from previous engagements, sought to enhance team collaboration and camaraderie among her team members through a structured team-building program.

Initial Challenges:

The team members were from different branches of the company and hence had limited interaction with each other.

There was a need to build a sense of unity and effective communication among team members.

The Health & Safety officers required a platform to bond and develop better collaboration skills

They also need training to be better ambassadors.

Objective:

The primary objective was to promote collaboration, camaraderie, and effective communication among the Health & Safety officers, ensuring they could work together more efficiently in their roles. The workshop aimed to be engaging and relevant to their field of health and safety.

Solution:

We designed an in-person, full-day experiential learning workshop. The workshop included a series of activities tailored to foster teamwork and communication, with a strong emphasis on the practical aspects of health and safety.

Execution:

Activities:

We allowed them to know more about each other through an amazing ice breaker.

They had three activities that fostered:

The right mindset

Situational
Leadership

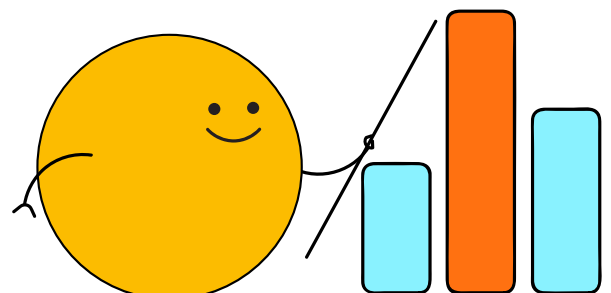

Planning and
execution

Importance of
good relationships

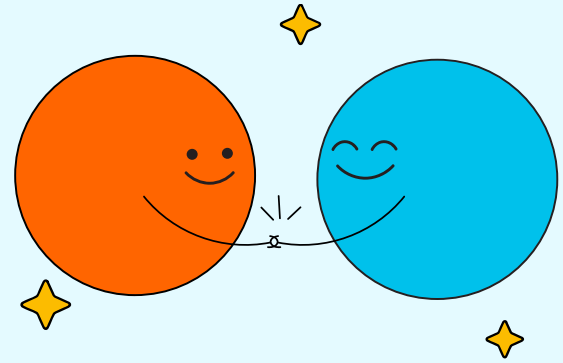

Customization:

The workshop's debrief sessions were customized to align with health and safety principles, ensuring relevance to the participants' daily roles.

Impact:

Participants appreciated the break from routine and found the activities extremely enjoyable and enriching. The activities successfully fostered a sense of team spirit and All participants rated the experience as excellent, with many highlighting the fun and effective team-building aspects.

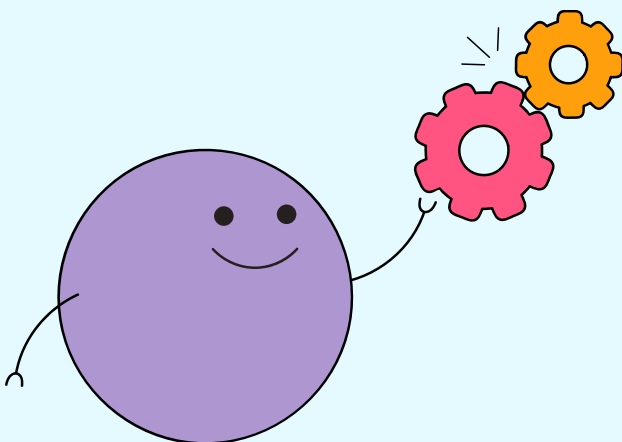

Quantifiable Metrics:

Participants
rated us a
10/10.

Engagement:
100%
participation and
high engagement
throughout the day.

Other Results:

Participants appreciated the break from routine and found the activities extremely enjoyable and enriching. The activities successfully fostered a sense of team spirit and All participants rated the experience as excellent, with many highlighting the fun and effective team-building aspects.

Testimonials:

Participant Feedback:

“

Extremely fun! Great team-building experience! Everything was up to perfection.

- Participant

“

It was excellent and keep it up. Superb!!! Don't think there is better than this.

- Participant

“

The session was well-organized and enjoyable. I really liked the way it was customized to our field.

- Participant

“

I will never forget you for the rest of my life, as I just had a call with my boss, and he said I am proud of the way you just resolved the challenge we had.

- Participant

Client Feedback:

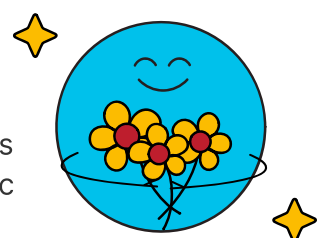

“

FocusU did an outstanding job tailoring the activities to our specific needs. The team-building session not only met but exceeded our expectations. We are looking forward to more collaborations in the future.

- Head of Health & Safety

Conclusion:

The workshop successfully fostered a collaborative and communicative team environment. Through carefully designed experiential learning activities, the Health & Safety officers were able to bond and develop essential teamwork skills, setting a strong foundation for future success. This case study highlights the effectiveness of customized team-building programs in addressing specific organizational needs and enhancing overall team performance.
